SAHIL YADAV

Gurugram, Haryana | +91 93062 87956 | sorav.yadav112@gmail.com

Java Developer with hands-on experience in building enterprise-grade applications using Java and Spring Boot. Skilled in designing RESTful APIs, integrating relational databases with Hibernate, and implementing secure, role-based systems. Strong foundation in end-to-end development, deployment, and performance optimization.

PROJECTS

Task Management / To-Do App

Tech: Java, Spring Boot, MySQL/H2, HTML, CSS, JavaScript

- Developed a CRUD-based task management application to add, update, delete, and track daily tasks.
- Implemented REST APIs with Spring Boot for seamless front-to-back communication.
- Integrated MySQL/H2 database for persistent storage and efficient data handling.
- Designed a responsive front-end with HTML, CSS, and JavaScript for intuitive user experience.

Library Management System

Tech: Java, Spring Boot, Spring Security, Hibernate, Thymeleaf, MySQL

- Built a web application to manage book inventories, user accounts, and issue/return timelines.
- Implemented authentication and role-based access control using Spring Security.
- Utilized Hibernate ORM for relational mapping between books and users.
- Designed dynamic server-side rendered pages with Thymeleaf templates.

E-Commerce Web Application

Tech: Java, Spring Boot, Spring Security, React, PostgreSQL

- Developed a mock online store with product browsing, shopping cart, and order checkout features.
- Built secure RESTful APIs to handle product catalog and order management.
- Integrated PostgreSQL for robust data persistence and scalability.
- Designed a modern front-end with React for interactive and responsive user experience.

SKILLS

Frontend Development: HTML, CSS, JavaScript, React (basic)

Backend Development: Java, Spring Boot

Databases & ORM: MySQL, PostgreSQL, MongoDB

Frameworks & Templates: Thymeleaf, Hibernate

Servers: Linux (CentOS/RHEL), Systemd

Version Control: Git, GitHub

CERTIFICATIONS & ACHIEVEMENTS

- **Apna College – Sigma Course (Full Stack Development):** Completed structured training covering Java, Spring Boot, HTML, CSS, JavaScript, databases, and deployment practices.
- **Campus Certification:** 3rd Runner-up at Tech Fest '24
- **Coordinated**: Sports Arena

EXPERIENCE

Freelance Developer (Remote 2025)

- Delivered custom web applications for small businesses and individual clients, handling everything from database design to front-end implementation.
- Developed CRUD-based backend systems with Spring Boot and Hibernate, exposing clean REST APIs consumed by React and JavaScript front-ends.
- Set up containerized deployments using Docker and managed version control workflows with Git.
- Optimized database queries and application performance, reducing response times and improving user experience.

EDUCATION

B.Tech in Computer Science & Engineering

World College of Technology and Management, Gurgaon | Oct 2022 – June 2026
